What You Talkin' Bout Willis?

We recently moved from our beautiful Condo near the Willis Tower to the far, far south suburbs. We bought a beautiful 30,000 square foot home in the stunning and elegant city of Burning Springs, KY. We hated the cold in Chicago. We really are enjoying the fanciest dining and shopping. Chili's has become a favorite. They know us by name there now and often have our drinks ready at the bar for us. They mentioned it is likely that in 2022, they will be creating specialty dishes named after us. Flaming Nutsos, Back Off Baby Back Ribs and Beat It Loaded Mashed Tater Tots were the staff favorite dish names. They totally love us there. Yankee Candle has also

mentioned it may re-name its parking lot Fire Lane after us, since we use it so frequently. Not to worry – nothing wrong with us at all, it is just so much easier, as it is conveniently located right next to the entrance! The store manager loves to leave us funny notes on the windshield. Such a jokester!

Geni (me) is currently looking for a new Mani/Pedi salon, as the last one is doing poorly after a small candle caused some smoke damage. The door seems to be locked everytime I go there. And Hubby, Brann, is a "hot-shot" at the Golf Club and has been awarded the Mulligan King Trophy. So proud!!

Light 'Em Up!

After our 800 sq ft Condo went up in flames the 2nd time in 2020, we decided to move. Obviously, it was too hot to handle. *Insert laugh/cry emoji here* The Insurance Company proved a tad "heated" the second time around. *insert bonfire emoji here*

We were shocked, since they have plenty of cash to throw around (We know. We saw it when they invited our neighbor to the Super Bowl because she is some big shot Insurance Broker) and so we were at a loss *insert flames emoji here* when they seemed skeptical over our 2nd fire. However, our lawyer, the Hon. Char Cole, fought for us and we WON! So on to bigger and brighter things. *Insert match emoji here*

Our grown children have also used Char's services and have been very pleased. She helped son, Blaze, with suing the ATV company for the leg burn he got from the exhaust pipe and she helped daughter, Heather, who we often call by the nickname 'Heat', with her lawsuit for the skin burn she got at the dermatologist. Both kids also bought brand new homes this year!

Our dog, Inferno, is enjoying his new smoked bones.

QUOTE OF THE MONTH:

*Keep a little fire burning; however small,
however, hidden*
- Cormac McCarthy

Stay Safe this Christmas! This happened to us in 1982!

Have a Fiery Christmas & a Hot New Year!
