

DEAR SHEEPLE,

you may have escaped my TRUTH VOLCANO at thanksgiving, but no longer.

I recently received SANT level clearance.

Secret Authorization No-Telling

MESSAGE:

crumbs are spread everywhere

i am the dustpan

all is seen and written in the book

The belly laughs but the eyes are shrewd

Every sin recorded

get off the naughty list if you can

U must connect the dots

but ignore the driving snow

5 reindeer are visible, but where are the others?

likely hidden by the SLEEP STATE

- prying eyes

= Kringle dropoff

very convenient

? no

how did the presents get under the tree?

christmas isn't what you think you think

take a look at the media

all the liberal snowflakes swirl on the air

where are the elves?

/ slash slashing through the snow

my suggestion is to keep your eyes on the forecast

only snow on Christmas eve

Call the generals to see where the red man goes

. but they will lie

elves lie in wait for the white storm

be alert

understand the route

Trim the tree

use your voice to sing

open your heart

You are loved
