

Dear John,

China was fine. Lush and green wish i woodve gone earlier.

Hope you and the kids are good.

St Lewis was grate!

Mini corn cobs like we are used to. Croutons were not stale enough.i couldn't get thru to the manager imparting how important it is to have cold fresh ranch and hard hard bread

Chinese Taipei is a wonderful country. They sell several different shirts with different names of their country. It's confusing for them and me. Spoke to two merchants that agreed about the flatness of the earth. Good to know that the Flat Earth Society is active on the other side of the globe. China i think is very hilly but Chinese Taipia is flat. Really nice for my bunions.

Chinese Taipei is hard to find on a map because the Olympics dont build stadiums there. I went to COCACOLA.COM to find out more information about Chinese Taipei but that website directed to war.org

The dogs are good. Kim is enjoying her new job at H&R Block

Our trip to New Zealand was seminole for us. Incredible to see this big blue marble that we all live on. To fly around the circumference of the earth and see the curvature re-instilled my commitment to the Flat Earth Society.

Take a flight and get real, right! We are so close to the ice wall.

In love,
Greg and Kim
