Subject: Happy Christmas

Dear Wild Weasel Family,

I recently came upon a reflection that I feel is very timely for us this year, coming out of the pandemic and trying to get back to operating as normal. This reflection revolves around the first Christmas when there was no room at the inn and baby Jesus was born in a barn and laid in a manger.

Upon hearing the Christmas story, we might ask ourselves: "Why was baby Jesus in a manger?" Most mothers would hold a newborn child in her arms or lay it in a crib - not give her baby to a manger. While on vacation with my family this week at Great Wolf Lodge (and doing some recon on our biggest competitor!), I came up with a reason that I found thought-provoking. Think of myself as a shepherd and yourselves as my animals.

Animals like you use a manger for food - in your case, usually employee-discounted Badger Burgers and Muskrat Milk Shakes. A shepard concerned about his flock would be careful to ensure that his manger is able to feed animals like you so that they would be strong enough to work a double 6 days in a row and clean the rooms after an IBS convention rolls through the Chalet (Thanks, Derik!)

The Christmas manger represents the table at Jesus' Last Supper. That infant in the manger would be the one who would take a cup of wine and say "This is my blood" - just like the new Wild Weasel Wine Bar that's been installed beside the Mink Sink Raft Ride.

And while those that attended the first Christmas did so together as one, the shepherd and the drummer boy would never join a union with each other. If the wise men didn't like their work, they could just find another king to serve. Unlike that first Christmas, nowadays it seems like no "men" want to "wise" anymore. As a reminder - we do have openings for night shift and our employee referral bonus is \$50 cash!

But I digest... The great feast of Christmas reminds us that Christ entered the world to sustain us. His desire to feed us is evident throughout His life - starting with His birth with the manger. The Christmas feast should also remind us to push the new room service

menu, especially the Cheddar Ferret Fountain as those cheese bags are set to expire in January.

And of course, the baby Jesus was born in a manger because there wasn't room at the inn. If Jesus had showed up at Wild Weasel Chalet, I know that none of our employees would turn the Holy Family away. That said, if anybody checks in with a foreign sounding name like Jesus, please continue to use the Weasel Watch Hotel Hotline to report threatening guests.

I can only imagine the serenity on the Christ child's face if he were to be placed in a pool floaty and pushed down the Lazy Skunk Stream. Of course, we would have to wait until after the Skunk Stream is chlorinated due to the recent rash of Giardia.

On behalf of my family and the Wild Weasel Chalet leadership team, I wish you a Blessed Christmas and a Happy New Year.

Your Boss,
Jeff

Subject: RE: Happy Christmas

Hello Jeff

Just wanted to confirm that my vacation day was approved on 12/18 to attend my daughter's Hanukkah dinner?

Thank u - Adam

Subject: RE: RE: Happy Christmas

All time-off requests have been suspended until February and the breakroom has asbestos so please eat lunch in your cars.

Thanks,
HR
